

MAIDEN[®]

MODERN STEEL DOOR SYSTEMS

PRODUCT CARE INSTRUCTIONS

Routine care and maintenance is recommended

- DO NOT use bleach, vinegar, ammonia, citrus, adhesive removal solutions, turpentine, spirits, thinners or solvents on door finishes.
- Warm water and a damp non-abrasive cloth/rag is advised for cleaning steel frames.
- Pro Tip: A small amount of soap or mild detergent can be added to warm water for more aggressive cleaning.
- Tempered glass can be cleaned using “Ammonia-Free” glass cleaning solutions.
- Hardware and moving parts should be kept clean & maintained as needed.
- Quarterly checks are recommended to ensure optimal performance.
- Keep product(s) dry when possible and remove any standing water that develops on sills or frames.
